Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 June 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 29, 36, 43, 50 and 57 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishizuka et al (US 5,226,224).

Ishizuka discloses in Figs. 4-7S the manufacturing steps as disclosed in claims 29, 36, 43, 50 and 57. Fig. 5 shows 602 having distal end with a bore over jacket and the insulation is removed therein.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 64 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ishizuka et al (US 5,226,224) in view of Neiman et al (US 3,748,932).

Ishizuka fails to disclose creating multiple slits both radial and axial and removing jacket.

Neiman discloses in Figs. 1-2 creating multiple slits both radial and axial and removing jacket.

Art Unit: 3729

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Ishizuka by creating multiple slits both radial and axial and removing jacket, as taught by Neiman, for the purpose of providing locations for multiple connections of terminals.

5. Claims 88-90 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishizuka et al (US 5,226,224) in view of W. W. Weber (US 1,396,903).

Ishizuka fails to disclose affixing the first and second terminations to the stranded cable before stripping away substantially all of the manufacturing jacket from the stranded cable over the portion of the stranded cable lying between the first and second terminations.

Weber discloses a handheld insulation cutter for stripping away substantially all of the manufacturing jacket from the stranded cable over the portion of the stranded cable (Figs. 1-4).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Ishizuka by using a handheld insulation cutter by Weber to strip away substantially all of the manufacturing jacket from the stranded cable over the portion of the stranded cable lying between the first and second terminations after affixing the first and second terminations to the stranded cable for the purpose of meeting the change in design criteria.

Response to Arguments

6. Applicant's arguments filed 6/26/06 have been fully considered but they are not persuasive.

Ishizuka discloses 603 that which is devoid of insulation meets the “stripping away substantially all of the jacket” as argued by the applicants.

Interviews After Final

Art Unit: 3729

7. Applicant note that an interview after a final rejection must be submitted briefly in writing the intended purpose and content of the interview (the agenda of the interview must be in writing). Upon review of the agenda, the Examiner may grant the interview if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.

Conclusion

8. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3729

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (571) 272-4564. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

The fax phone numbers for the organization where this application or proceeding is assigned are (571) 273-8300 for regular communications and (571) 273-8300 for After Final communications.

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke at the end.
